AVOLUTION™
The beginning of the Evolution

Avolution™
Colour video intercom systems

ASSA ABLOY, the global leader
in door opening solutions

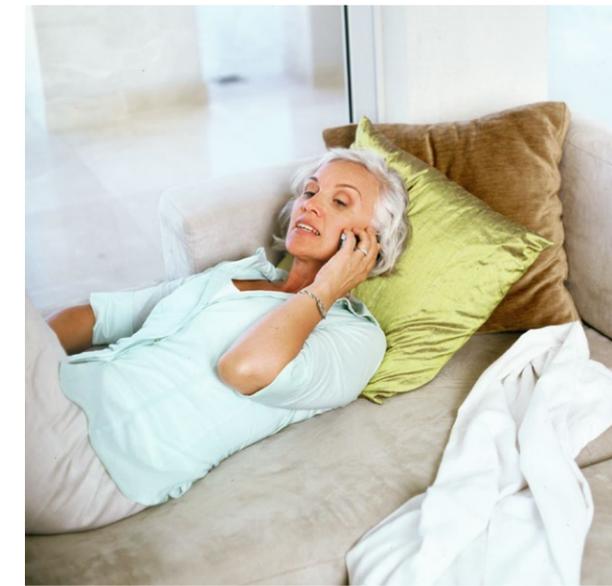

The Avolution range of colour video intercom systems showcase the latest innovations in electronic technology, design and user friendly operation to offer an extremely attractive solution for your home. With two styles of indoor monitors available, the Avolution systems not only provide choices in features, but also in styles and sleek designs to best suit your décor.

See and speak with visitors at your front door or gate from the privacy and security of inside your home without opening doors to strangers, all in vivid colour and clear sound, using large 7 inch LCD handsfree indoor monitors.

Both systems can be expanded to accommodate Two door/gate stations, with facilities to unlock doors/gates at those locations, either 2 or 4 indoor monitors and even connections for viewing TV or other video sources such as closed circuit television (CCTV) cameras.

The Avolution external door or gate station contains a quality colour camera which also incorporates automatic LED lighting to provide quality video at night. There is also an illuminated name Label for you to display your name or street

No more lifting handsets, just press one button to answer the call and from then on, your conversation is totally handsfree.

number along with a call button and handsfree audio communications to the home.

When the door associated with the door station is unlocked from an Internal monitor, the name plate illumination also shines brighter, showing the visitor that the door is then unlocked.

The SMA-F65 model handsfree 7 inch colour monitor, with it's attractive silver face and white surround, allows for expansion up to 4 indoor monitors with call transferring, paging, broadcasting, intercommunications between monitors, do not disturb function and can also monitor up to 4 CCTV cameras or video sources, even one with audio.

Feature Summary

7 inch colour LCD indoor monitors

Handsfree communications on visitor calls and internal calls

Monitor and communicate with up to two door/camera stations

Monitor external video & audio inputs such as CCTV cameras or even watch TV

Remotely unlock doors or gates from internal monitors

Selectable chime/melody on calls

Call transfer between monitors

Paging facility between monitors

Broadcast announcements to all monitors

Internal intercommunications between monitors

Do not disturb function on monitors prevents chimes but still shows video

All items powered using low voltage power adaptors

12 months warranty

The SMA-F69 model handsfree 7 inch colour monitor, with it's touch sense buttons and actual brushed aluminium surround, allows for expansion up to 2 indoor monitors with call transferring, paging, do not disturb function and can also monitor up to 2 CCTV cameras or video sources, both with audio.

Each monitor can be customised with a choice of 10 chimes or melodies which can be individually selected for door station 1, door station 2 and Internal intercommunications calls.

With on-screen operational guidance and setup menus, using all the features available with these systems is not only easy, it's fun.
